AUTHENTICATION CHAIN

- 1 Sample received**
Sample submitted by the customer and logged against this lot.
- 2 Laboratory analysis**
Tested by a CertikLabs partner laboratory under contract.
- 3 Authenticated**
Results checked by CertikLabs against the original lab record.
- 4 Published**
Released to the permanent public record at the URL below.

Analytical testing was performed by an independent partner laboratory under contract to CertikLabs. CertikLabs authenticated the results against the original laboratory record before publication. Results apply only to the sample and lot identified above and make no safety, efficacy, sterility or intended-use claims. For research use only.
